

January 2020

Dear Healthcare Provider,

WG Critical Care will be introducing a new, single vial package configuration for Ampicillin 10g for Injection, USP. This new configuration replaces our current 10 vial pack size configuration. Please see below for the new NDC and wholesaler order entry number details:

	NDC #	Product Name	Total Amount	Container Type	Package Size	Wholesaler Order Entry Number			
						Amerisource Bergen	Cardinal Health	McKesson	Morris & Dickson
New Configuration	44567-0104-01	Ampicillin for Injection, USP	10g	100mL	1 vial	10232843	5594429	1508258	888032
Current Configuration	44567-0104-10	Ampicillin for Injection, USP	10g	100mL	10 vials	10110592	4778932	1478098	228932

The wholesalers are currently working on transferring forecasted demand from the current configuration to the new configuration and have submitted initial stocking orders for the new configuration.
