

NOREPINEPHRINE

Bitartrate in 0.9% Sodium Chloride Injection

With Oxygen Absorber and Oxygen Indicator Technology

EXPOSURE TO OXYGEN AND LIGHT
CAUSES NOREPINEPHRINE TO DEGRADE ¹

Overwrap with
cellophane window

OXYGEN INDICATOR

- Visually confirms product potency.¹

If there has been no exposure to oxygen, the color of the indicator will be **yellow** or **orange**.

If the indicator is **green** or **blue**, the product should be discarded.

OXYGEN ABSORBER

- Placed inside the overwrap at point of manufacture.
- Absorbs oxygen to help prevent product degradation

Confidence. It's In the Bag.
